## Event Rules

### BARREL RACING

- Barrel racing is a timed event for females. The fastest time (including all penalties) wins.
- The course must be measured exactly according to diagram and cannot exceed these dimensions. However, if the course is too large for the available space, the pattern should be reduced five yards at a time until the pattern fits the arena. Adequate space must remain between barrels and any obstacle. The distance from barrel number three to the finish line need not be reduced five yards (4.6 meters) at a time if there is sufficient room for the horse to stop. When measuring the area for the barrel course, allow ample room for horses to complete their turns and stop at the finish. It is recommended there be at least 45 feet (13.5 meters) from the starting line to the end of the arena, at least 18 feet (5.4 meters) from barrels 1 and 2 to the fence and 36 feet (10.8 meters) from barrel 3 to the end of the arena.
- Brightly colored 55 gallon (200 liters) steel drums with both ends intact must be used. There shall be no rubber or plastic barrels or barrel pads used.
- Starting line markers or electric timers, when possible, shall be placed against the arena fence. An electric timer or at least two watches shall be used, with the time indicated by the electric timer or average time of the watches used by official timers to be the official time.
- Timing shall begin as soon as the horse's nose reaches the starting line and will be stopped when the horse's nose passes over the finish line.

- The contestant is allowed a running start. The contestant will proceed to run a clover-leaf pattern consisting of either 1 right turn around the first barrel and 2 left turns around the second and third; or 1 left turn around the first barrel and 2 right turns around the second and

third barrels. After completing the final turn, contestant must run between the first and second barrels. (See diagram).

- Knocking over a barrel adds a five-second penalty for each barrel knocked over.
- Failure to follow the course shall result in disqualification. Contestants must exit the arena upon breaking the pattern. A contestant may touch the barrel with his or her hands in barrel racing.
- The judge, at his/her discretion, may disqualify a contestant for excessive use of a bat, crop, whip or rope in front of the cinch.
- Each horse will only be allowed to run one time, unless run by a different competitor.

## ROPING EVENTS

- Horses must start from the roping box.
- Calf roping and heading horses in team roping must start from behind a barrier (an electronic barrier is acceptable). Breaking the barrier will result in ten second penalty. The length of score will be decided upon by judges. Max=length of box – 2 feet; Min = length of box – 4 feet
- The contestant shall not attempt to rope the animal until the barrier flag has been dropped. Any attempt by a contestant to position his horse behind the barrier enabling the contestant to rope the animal without attempting to leave the box shall be disqualified.
- Any unnecessary whipping, jerking reins, talking or any noise making, slapping, jerking rope or any unnecessary action to induce the horse to perform better, will result in disqualification.
- The judge may at his discretion award new cattle to a contestant under the following circumstances:
  - Chute or barrier malfunctions, if the contestant pulls up and does not attempt to rope the calf/steer
  - Stock turns back immediately before the score line
  - Stock leaves arena
- In all roping events, a run must be completed within a one minute time limit.

## CALF ROPING

- Time starts when calf breaks neck rope (or crosses electric eye if electronic barriers are being used). Time stops after the calf has been tied and roper puts hands in the air. Fastest time (including all penalties) wins.
- If more than one loop is used, the roper may carry a second rope tied to the saddle or the roper may rebuild the original loop.
- Any catch that holds is legal, but rope must remain on calf until the roper touches the calf.
- If the roper fails to catch, he will retire from the arena with no score
- If calf is not standing when roper reaches calf, the roper must re-throw calf by hand. Then he will cross any three feet, and tie with not less than one complete wrap and a half hitch. The roper must then remount his horse, ride up to put slack in the rope. Once the rider puts slack in the rope, the judge will start his time. The calf must remain tied in appropriate manner for six seconds. If calf does not remain tied for six seconds, the roper will be disqualified. The roper will also be disqualified for touching the calf after he has called for time and for intentionally dragging the calf.
- Horse must start behind a barrier, and +10 second penalty will be in effect for any broken barriers.

### **BREAKAWAY ROPING**

- This is a timed event for females with a one-minute time limit.
- Horse must start from behind a barrier. A 10-second penalty will be added to the time for breaking the barrier.
- Ropes are to be tied to the saddle horn by a heavy string provided by the judge. String must be tied at the end of the rope and the rope must have a visible cloth or flag at the end of the rope.
- Two loops will be permitted. Should the roper desire to use a second loop, he may either recoil if carrying only one rope or use a second rope tied to the saddle horn. If the second loop falls loose, it cannot be rebuilt.
- The contestant shall receive no time should he break the rope from the horn by hand. If rope wraps around saddle horns, the roper may undally the rope from the saddle horn so long as she does not break the string.
- Time will be start when calf breaks the neck rope (or upon crossing electric eye) and time stops when the rope breaks away from the saddle horn, indicated by the field judge. A legal catch is a clean bell collar loop that causes the string to break away from the saddle horn. A bell collar catch is defined as the loop passing over the head of the calf, with no feet or legs in the loop. Roping the calf without releasing the loop from the hand is not permitted.
- The contestant shall not attempt to rope the animal until the neck rope breaks. Any attempt by a contestant to position his horse behind the barrier, enabling the contestant to rope the calf without leaving the barrier or box, shall be considered a disqualification.
- Rope may not pass through bridle, tie-down, neck rope or any other device.

### **TEAM ROPING**

- There is no limit to the number of entries per contestant, but a team may not enter in the same Header/Heeler combination more than once.
- The header will start behind a barrier, and a ten second penalty will be added for any broken barriers. Time starts when the steer breaks the neck rope (or electric eyes). A 1-minute time limit will be in effect.
- All heading and heeling cattle shall be protected by horn wraps. Legal catches in heading are both horns, half-head, and around the neck. Any figure-eight catch or front leg in the catch is not legal. Any catch made by the heeler must be a legal catch defined as a catch that holds from behind the steer's shoulders and back, around the flank, or on one or both heels/hind legs, but not by the tail only. When heeler catches only one hind leg, a 5 second penalty will be added.
- Three loops may be used among both the header and the heeler.
- The header must head the steer and the heeler must heel the steer. Horses cannot switch positions.
- Cross-firing will not be permitted and will result in disqualification.
- Riders are to stay mounted. When both ropes are dallied and both horses are facing stretched steer, run is completed. The rope must be wrapped around the saddle horn at least one complete turn before it is considered a dally. Time stops when heeler dallies, header faces, and both ropes are completely stretched.
- Competitors may be disqualified for the following reasons:
  - excessive whipping/striking horse
  - loss of rope by either the header or the heeler

- failure to maintain a dally through the completion of the run.
- refusal to face

### **RANCH STYLE BRONC RIDING**

- All contestants must be ready to compete when name is called.
- No re-runs or re-rides due to contestant's faulty equipment.
- "Ride as ride can" for eight (8) seconds.
- Any style of spurs can be used as long as rowels are dull. (at least 5 point rowels) and are not locked.
- Any rigging or saddle will be allowed.
- Rider can hold on to horn, latch, or rope.
- The event will be judged for the difficulty that the horse demonstrates from one (1) to twenty-five (25) by each judge. The rider will be judged from one (1) to twenty-five (25) by each judge for his aggressiveness, control, and exposure.
- No mark out rule will be enforced.
- Stock will be drawn for each competitor, and that is the stock that the competitor must compete upon. Rerides will be given at the discretion of the judges.

### **BULL RIDING**

- Bull must be ridden for eight seconds; with time starting when animal's inside shoulder passes the plane of the gate.
- Both judges will score the animal 0-25 and rider 0-25 points. (Allowing a max of 100 points).
- Stock will be drawn for each competitor, and that is the stock that the competitor must compete upon. Rerides will be given at the discretion of the judges.
- Riding is to be done with one hand and loose rope, with or without handhold. No knots or hitches to prevent rope from coming off bull when no rider leaves bull will be permitted. Ropes must have a bell, with bell being under the bull's belly.
- If rider makes a qualified ride with any part of the loose rope in riding hand, he is to be marked.
- Disqualifications may occur if:
  - The rider is bucked off before the eight seconds, uses sharp spurs, or touches anything with his/her free hand
  - Ropes with knot, wires, or other aids or used
  - No re-rides will be given due to default or breakage of contestant's equipment
  - No object should be placed in or under the rope or pad to slow or hinder the bull
  - Bull is slapped/touched with free hand.

## POLE BENDING

- Pole bending is a timed event for females.
- Each contestant will begin from a running start, and time shall begin and end as the horse's nose crosses the line. A clearly visible starting line must be provided. Stopwatches or electric eyes are permitted.
- The pole bending pattern is to be run around six poles. Each pole is to be 21 feet (6.4 meters) apart, and the first pole is to be 21 feet (6.4 meters) from the starting line. Poles shall be set on top of the ground, six feet (1.8 meters) in height, with no base more than 14 inches (35 cm) in diameter.
- A horse may start either to the right or to the left of the first pole and then run the remainder of the pattern accordingly.
- Knocking over a pole shall add a five-second penalty for each pole knocked over.
- Failure to follow the course shall cause disqualification. (Must run straight in, weave in and out, and run straight out; see diagram) A contestant may touch a pole with his or her hand in pole bending. If the original course is altered by a rider intentionally grasping a pole, a five second penalty for each pole grasped will be assessed.

## GOAT DRESS

Each team will consist of two contestants of males and/or females. The object of the competition is to dress your designated goat the fastest. A judge will call time to begin at which when each team is to get pants, hat, shirt, and belt from the middle designated area. The goats are not to be removed from their staked lead ropes. Stakes are to remain in the ground during competition. Time will end when the goat is completely dressed and both team members have once again crossed the timers. A team will be disqualified if the clothes are not correctly put onto the goat.

## BUDDY BARREL PICK-UP

The rider starts at entry end of arena. Rider rides to opposite end, circle the barrel picking up their partner from the barrel (partner must be standing on top of the barrel for qualification) and riding double must ride back to starting end of arena. If the rider falls from the horse after he/she has jumped from the barrel onto the horse, then he/she will be allowed to re-mount the horse for a qualifying score. Time starts as rider crosses judge's line headed to barrel and stops as both contestants cross the judge's line coming back to starting position (both contestants must be on horseback or receive a no time). Contestants may compete in Buddy Barrel Pick Up multiple times, but must change partners or positions for each entry.

## **CHUTE DOGGING**

Contestant will receive a 60 second time limit. Stock will be run into one of the bucking chutes. All stock will be turned out in the same direction. The score line will be clearly marked, parallel to the bucking chute and 10 feet in front of the chute. If after calling for the steer, the steer gets loose, the dogger may take no more than one step to catch the steer. The wrestler must bring the steer to a stop or change its direction and twist it down. The steer is considered thrown down only when it is lying flat on its side, or on its back with all 4 feet straight. A hullahan (steer lying down with 2 legs one way and 2 legs under or the other way) will result in a disqualification. No tailing of steers from the chute is allowed. With steer's loaded in chute, dogger gets beside the steer, left hand on the left horn, right hand in front of or behind the front shoulder. When dogger calls for the steer, the chute will be opened. Dogger must keep right hand in front of or behind shoulder until steer's nose crosses the score line. If dogger moves into throwing position before steer's nose crosses the score line, there will be a 10 second penalty added to the time. If steer is thrown before crossing the score line, the dogger will be disqualified. Time starts when steer's shoulder crosses the plane of the bucking chute.

## **WILD COW MILKING**

Teams will consist of three males on foot. Steers will be released into the arena. The objective is for each team of three to rope one steer and then grab a strand of tail hair and bring to the judge at the starting line. The steer must be roped before the strand of tail hair can be pulled. The team must release the rope upon pulling the strand of hair. The first team of three who all cross the finish line with their strand of tail hair and rope will win the event.

## **GOAT CHASE**

Each team will consist of three female contestants. The object of this competition is to chase down, catch, and bring over the finish line one goat from the group. A group of goats will be released out onto the arena. All contestants will begin on an even starting line. The judge will call start time and the first team to catch and get their goat and all team members back across the finish line will be the winner. Team will receive no time if they do not have a goat or all team members are not over the finish line. All team members must have a hand on the goat when crossing the finish line.

**OVERALL COWBOY/COWGIRL**

This award will be given at the student rodeo only. The winner of the overall cowboy and overall cowgirl will receive a belt buckle. This award goes to the cowboy and cowgirl who acquired the most points throughout the night, and must have been entered in more than one BUCKLE event (refer to General Rules Section). If one contestant enters the same event more than once, only their highest score in that particular event will be counted towards all around. In the event of a tie, a coin toss will determine the winner of the buckle Points will be awarded in the following fashion in all events entered:
